

ALL THE CHILDREN OF THE WORLD

Text: Karen Kassulat
Musik: GALILEO - Two voices in one soul

I can hear the children sing
very beautiful and wise
I can feel the joy it brings
to see the world with children's eyes

We can learn to love and share
There is enough for everyone
We can learn to help and care
to make this world a better home

**All the children of the world
Come together sing along
Our lovely planet Earth
is the home for everyone**

Let us open up our hearts
Let us open up our eyes
Helping out is really smart
Being friends is really nice

**All the children of the world
Come together sing along
Our lovely planet Earth
is the home for everyone**

**All the children of the world
Come together sing along
Our lovely planet Earth
is the home for everyone**
